

- In 5, 10 and 25 ton capacities. For use with Aero Boom general purpose single-acting series cylinders of comparable capacity.
- For clamping, pressing and bending. Ideal for welding and metal fabrication for fit-up of sheet or plate steel.
- Clamps withstand full rated capacity of the cylinders for which they are intended.
- To minimize the effects of off-center loading, the ACC5, ACC10 and ACC25 should be used with the optional swivel caps.
