

TELESCOPING BOTTLE JACKS
Capacity 6-15 Ton

THESE JACKS OFFER GREATER EXTENDED LIFTING CAPABILITY.

A9006X

ASME B30.1

A9011X

A9013X

Bottle Jacks
Telescoping Jack

FEATURES

- Telescoping jacks offer all of the quality features and capabilities of the standard bottle jack line with a bonus. The super-long stroke of these jacks saves time and effort by eliminating the need to lift, crib, lift, etc. In most applications, the user can place the jack once and complete the lift.
- The A9015X offers very low clearance capability, making it the ideal choice for forklift maintenance or machine lifting.
- The taller A9006X, A9011X and A9013X all feature a unique beveled base that allows the jack to “follow” the load laterally as it is raised, greatly reducing side-loading of the piston.
