

## ASSAULT RESCUE SETS

Intergrading working types of chisel, cutting, smashing, prying and so on, It is an ideal manual forcible entry tool.

**Application:** 1, Especially suitable for the operation environment that with requirement of high maneuverability, for example, anti-terrorism; 2, Suitable for the operation of prying up the door, prying up the lock, pulling out the nail cutting, punching etc.

**Features:** 1. Integrated with many work heads, with the function of hammering, lifting, prying up the door, prying up the lock, pulling out the nail, cutting, punching etc. 2. All the working heads finish machining with high strength ,light weight alloy. 3. Specially integrated with backpack design, small volume, convenient to carry, Superior maneuverability.

## TECHNICAL PARAMETERS

Model	SENER-I	
Handle Force Needed	0.8KN	180lbs
Prizing up Force for Door	4KN	900lbs
Prizing up Force for Lock	10KN	2250lbs
Nail Pulling Out Force	10KN	2250lbs
Plate Thickness can be cut (Q235)	1.5mm	0.059in
Plate Thickness can be drilled Q235	1.5mm	0.059in
Weight	11.5kg	25.3ibs

## BACKPACK ELECTRIC HYDRAULIC TOOLS

Backpack Electric Hydraulic Tools is with electric pump as power, light weight, large force, high efficiency, simple single hand operation mode, so that the rescue personnel in a narrow space using a single hand more flexible use of tools; mainly used for rolling shutter door, metal anti-theft door dismantling operations; Seals all imported from Germany , better quality.

Hydraulic Spreader  
Model - GYKZ-42/150-W

Hydraulic cutter  
Model - GYJQ-36-18/60

Crowbar  
Model - EHK-5A

### Electronic Pump

Model	: EP-B
Rated Pressure	: 720bar.
Rated Output Flow(high flow)	: 0.4L/min.
Rated Output Flow(low flow)	: 1.0L/min.
Switch Pressure	: 5-10Mpa.
Hydraulic Oil Volume	: 0.2L
Motor Power	: 550W.
Motor Speed	: 2500rp/min.
Battery(Li-ion rechargeable batteries)	: 24V 5AH
Weight	: =10kg
Length of output Pipe Line	: 2m.

### Hydraulic Door Opener Model GYKM-63-60/100-W
