

## BATTERY MUTE PUMP

1. This equipment supply power mainly for cutting, spreading and lifting hydraulic rescue tools 2. With automatic high-low pressure conversion function, Make rescue more convenient and speedy. 3. Equipped with advanced import motor, makes it have superior performance and more powerful 4. Use NSK bearing and DICTOMATIK seal ring which import from Germany with perfect quality 5. Double hose with single coupling, with LOCK function and dust proof equipment, can plug and play under pressure, More easy and fast 6. BUTTON START switch, easily operating 7. Equipped with floodlight making operation more convenient under dark. 8. LED indicator can show the stock of the battery timely. 9. Compact body, carry conveniently, superior maneuverability.

**Application:** 1. Traffic accident rescue, earthquake disaster relief, buildings collapsing and large complex accident disaster integration rescue etc. 2. Especially suitable use in the rescue condition of needing double tool coordinate 3. Especially for low noise required rescue condition

**Features:** 1. Double hose with single coupling, with LOCK function and dust proof equipment, can plug and play under pressure, More easy and fast. 2. Big volume battery can supply durable power for rescue tools. 3. Large flow with high-low pressure, fast connection with equipment, short time-consuming; improve rescue efficiency 4. Unique safety-relief valve design, making the equipment not only have mi-operation prevention LOCK function ,but ensure it running safely and efficiently. 5. With automatic high-low pressure conversion function, Make rescue more convenient and speedy.; 6. Equipped with advanced import motor, makes it have superior performance and more powerful 7. Use NSK bearing and DICTOMATIK seal ring which import from Germany with perfect quality 8. Double hose with single coupling, with LOCK function and dust proof equipment, can plug and play under pressure, More easy and fast 9. BUTTON START switch, easily operating. 10. Equipped with floodlight ,making operation more convenient under dark. 11. LED indicator can show the stock of the battery timely. 12. Compact body, carry conveniently, superior maneuverability, Standard accessories 2 sets double color 5m high pressure hose.

Optional accessories: 1. can custom-order 5—20m hose at random length 2. portable cart 3 hose reel

## TECHNICAL PARAMETERS

| Model No                   | AEP-A         |                 |
|----------------------------|---------------|-----------------|
| Rated voltage              | 24V           |                 |
| Rated working pressure     | 720bar        | 10440psi        |
| Conversion pressure        | 50bar         | 725psi          |
| Rated output volume        | 0.5L/min      | 30.5cu.in/min   |
| Low-pressure output volume | 2.5L/min      | 152 cu. in/min  |
| Motor power                | 500w          | 0.74MHP         |
| Hydraulic oil volume       | 1L            | 152 cu. in/min  |
| Motor rotate speed         | 2500rpm/min   | 2500rpm/min     |
| Battery volume             | 3.3AH         | 3.3AH           |
| Weight                     | 12kg          | 26.4lbs         |
| Dimension(L*W*H)           | 370*145*365mm | 14.5*5.7*14.3in |
